School of Computing
RESEARCH ETHICS COMMITTEE

APPLICATION FORM FOR ETHICAL REVIEW OF A RESEARCH PROJECT INVOLVING HUMAN PARTICIPANTS WHICH IS IN THE CATEGORY OF NOTIFICATION ONLY

There are 3 generally accepted levels of ethical review for projects carried out in a University or similar setting. These are notification only, expediated and full committee.

This notification only level of review is to approve relatively low-risk research involving human participants, primarily using social science methodologies in which any personal information collected is not of a sensitive nature. The School of Computing Research Ethics Committee has been delegated responsibility by the University to approve ethics submissions from undergraduate and taught Masters projects only, which are in the category of notification only.

Examples of projects in this category include:

- Anonymous surveys in which the topic itself is not likely to elicit significant difficulties for the participants, such as: anonymous internet surveys (e.g. Survey Monkey), street questioning.
- Observation (without audio or visual recording) of public settings where privacy would not normally be expected, such as observing people on streets or at sports events.
- Research carrying no risks beyond those of everyday life (as experienced by the intended participant population), such as asking people's opinions about products or services; asking students about educational experiences; monitoring the impact of daily activities.
- Interviews with public figures, professionals or others in their professional capacity regarding their professional activities.
- Analysis of data (e.g. health records) which have had all identifying information removed by the data holder and been provided to the researcher in accordance with data protection legislation.
- Collection of biological samples which are anonymised and do not require invasive techniques (e.g. hair, nails).

If your project is using data from a public repository like Kaggle or is not generating or using any form of personal data then you do not need research ethics approval, you do not need to complete and to submit this form and your project supervisor should indicate this on the project dashboard.

If your project involves collecting or processing personal data which is of a personal nature, you must first complete the DCU online Data Protection training course and review the "Data Protection – Key Points for DCU Researchers" guidance from the Data Protection Unit to assist you in meeting your legal obligations under GDPR and associated Irish law.

Once you have completed this form (if you need to) you should save it as a PDF file, not WORD, and upload it to the your project dashboard before you start gathering data. It will then be read and assessed by two members of the committee and once two members of the committee approve your submission you will be automatically notified by email and your project can start data gathering.

There are strict deadlines for submitting this form for each class group, undergraduate and taught Masters by which your submission must be made and you will be informed of these deadlines by your course board chair or project co-ordinator. If you do not submit by these deadlines then the research ethics committee is not obliged to approve your submission and when that happens and your project is assessed and graded at the end of the year, you will be awarded 0 for that component of your project.

_____

SECTION 1 – GENERAL DETAILS

1.1 Project Title

TerraTalk

1.2 Applicant Details

Name	Student or Supervisor	E-mail
Siri Nandipaty	Student	siri.nandipaty2@mail.dcu.ie
Madalina Triboi	Student	madalina.triboi2@mail.dcu.ie
Tracey Mehigan	Supervisor	tracey.mehigan@dcu.ie

Other Investigators: *Including any external to DCU*

Name	School/Unit/External Institution	E-mail

1.3 Key Project Dates

Proposed start date for data collection	Proposed end date for data collection	Proposed project completion date
1/1/2024	23/02/2024	23/02/2024

1.4 Please indicate which academic award

☑ Undergraduate	Taught Masters ☐

1.5 Please confirm the location(s) where the research will be carried out
If research will be carried out abroad, you will need to address the ethical challenges raised by this in Section 3 of your application - consult the Conducting Research Abroad document in the Ethics Resources and Guidelines section of the [DCU Research Ethics webpage](#)).

Dublin City University

1.6 Please state what additional permissions may be required to access participants.
Specify from whom the permission is required (e.g. a school Board of Management), and when their written approval will be obtained

Localisation permissions will be requested from the app users after registration/log in.

SECTION 2 – PROJECT DESIGN AND METHODOLOGY

Research Overview - Please respect the indicated word counts in the following sections and explain all acronyms in full text the first time they appear.

2.1 Provide a brief description of the research (max 250 words):
Please use lay language, include the scientific/theoretical background of study and a justification as to why this research project should proceed in that context

> Our project is called TerraTalk. It is an app that connects users who want to educate themselves on environmentalism and to connect with other people that are concerned with greener living. This project aims to allow users to post, like, comment and share on a forum which will be subdivided based on topics. The frontpage will display global and local news relating to environmentalism and there will be an events page which shows the user what local activities they can participate in. Finally there will be a map with filters the user can access which will show you where recharge stations for bicycles, recycling bins, vegan restaurants and farmers markets are located.

2.2 Please state the aims and objectives of the project (max 200 words)

> The aim of this project is to bring together like minded people not only through education but through community. Environmentalism is a topic that is becoming more and more important in our everyday lives and for some it is overwhelming to go green with the amount of information about green living there is on the internet, With our app we want to encourage people to share their ideas and thoughts about how to live more eco friendly and to share their knowledge with other people. There are apps out there such as Treehugger and Lifehacker that contain many articles and videos on how to be more sustainable but what they lack in a social aspect. We want a place where people with little to no knowledge on green living can be accepted and educated by a community of other environmentalists.

2.3 Please confirm your methods of data collection:
Tick all relevant check boxes and provide details for each one, including any devices used to collect data, and whether the data will be anonymous, potentially identifiable or identifiable <u>at point of collection</u>

Method	Describe briefly
☐ Interviews or focus groups	
☑ Surveys/questionnaires	Ask user for consent to track their location; ask user at registration topics they are interested in for personalisation.
☐ Audio/video recordings	
☐ Public observations	
☐ Persons in public office	
☑ Using existing data (incl. secondary data)	Using Web Scraping and multiple APIs.

☐ Using human derived material (biological samples)	
☐ Standard tests (educational/personality etc.)	
☐ Standard educational practices	
☐ Other (please specify)	

2.4 Please confirm who the participants on this study will be, including group size and composition:
Include associated demographic characteristics, and state how your proposed sample size was determined (e.g. power analysis)

The participants will be 3rd year DCU students asked to test and use our app.
The sample size will be about 5-15 people.

2.5 Please outline your recruitment process, including where you are sourcing participants from and your criteria for inclusion/exclusion:
Where gatekeepers are involved, outline the procedures relating to their involvement

We will recruit people within our course who have the expertise and knowledge to give constructive and knowledgeable feedback.

2.6 Addressing participant vulnerability – if your participants fall into any of the following categories, please check the relevant tick box/boxes and state below what special arrangements will be made to protect them:
If your participants are not in any of these categories, tick N/A

☐ N/A
☐ Children under 18 years of age
☐ Persons in unequal relationships with the researcher *(e.g. lecturer-student, therapist-client, employer-employee)*
☑ People with a recognised or diagnosed intellectual, physical or mental impairment
☐ People confined to institutions *(e.g. prisoners, residents in 24 hr nursing facilities)*
☐ People who have undergone traumatic or adverse emotional events
☐ People with diminished cognitive ability
☐ Marginalised sections of society
☐ Other (please specify)
Special arrangements: We will implement accessibility features for people who struggle with reading and provide a clean app UI for people who are colorblind

2.7 Involvement of children under 18 years of age – if your participants are in this category, please confirm compliance with the following:
If your participants are not in this category, tick N/A

☑	N/A
☐	We confirm that we have read and agree to act in accordance with the DCU Child Protection policy and procedures (*as per the [DCU Child Protection Unit webpage]()*)
☐	We confirm that we have put in place safeguards for the children participating in the research
☐	We confirm that we have supports in place for children who may disclose current or historical abuse (whether or not this is the focus of the research)
☐	We confirm that all requirements will be met prior to commencing the research (*e.g. TUSLA Children First Training completed, Garda Vetting in place*)

2.8 Please confirm how the results of the research will be disseminated:
Include a statement on whether the participants will be provided with any information as to the findings or outcomes of the project

Results will not be made public, but will be shared with supervisor and project examiners with the purpose of providing app functionality. Participants will not be provided with information about the outcomes of the project.

SECTION 3 – ETHICAL ISSUES AND RISK MANAGEMENT

3.1 Please identify all issues including ethical issues which may arise in the course of this research. What are the potential risks to participants, and how will those risks be addressed or minimised?
Potential risks can be physical, psychological, social, legal, etc. Please include details of any additional support being provided for participants during/after the study

Ethical issue of Data Protection which includes keeping a record of user location & sensitive information (Email, Password). A potential risk to users will be a data breach which may leak their information online to potentially dangerous actors.
This risk will be addressed under the GDPR Laws to keep their information secure & managing their personal information securely on our end. This will include using security protocols on our server & databases.

3.2 Please identify the potential benefits (direct and/or indirect) to those participating in this research:
Potential benefits should outweigh the potential risks to participants

The participants will get amenities and services recommended to them based on their local area, inform them about news in their locality and events.

3.3 Please describe what measures/protocols you have put in place in the event that there are any unexpected outcomes or adverse effects to participants arising from involvement in the research:

Contact the participant and let them know of any unexpected outcomes and guide them with anything that's available and in power to us.

3.4 Do you intend to provide payment or incentives to participants?

Yes ☐	☑ No

If Yes, please consult the REC Guidelines on the Use of Compensation and Incentives (in the Ethics Resources and Guidelines section of the <u>*DCU Research Ethics webpage)*</u> *before providing additional details below*

3.5 Does this research raise any potential risks for the researchers themselves?
Please consider the location/environment where the research is being conducted, exposure to distressing data content etc.

☐ Yes	☑ No

If Yes, please describe further and explain what risk management procedures will be put in place to minimise these risks to researchers:

3.6 Does this research raise any potential conflict of interest?
Please consider any potential real <u>or</u> perceived conflicts of interest that might influence the integrity of the research, or give rise to bias in conducting and reporting the research, or affecting publication (consult the <u>*DCU Conflict of Interest Policy*</u> *for assistance)*

Yes ☐	☑ No

If Yes, please identify and explain the steps being taken to address that conflict:

```

```

3.7 Please describe how the conduct of the research will be monitored:
Regular oversight by the PI is required to ensure the project conforms to the procedures set out in this application (especially where several people are involved in carrying out the research procedures)

Scheduled meetings with our supervisor will take place, during which we will provide her with updates and information.

SECTION 4 – CONFIDENTIALITY AND DATA MANAGEMENT

4.1 Considering your previous response in section 2.3 of the form on data collection, please confirm whether you are collecting or processing personal data in this research project:
Personal data is any information about a living person, where that person is either identified, or could be identified from the data itself, or when it is combined with other data. This includes paper based, electronic and biological samples data. If your data is fully and completely anonymous, it is not personal data.

☑ Yes	No ☐

If Yes, please confirm your compliance with the following by ticking the checkboxes:

☐ We confirm that we have completed the DCU Data Protection training module on Loop.
☑ We confirm that we have read the <u>"Data Protection – Key Points for DCU Researchers"</u> guidance on the DCU Data Protection Unit (DPU) website and agree to protect and manage our data in accordance with same.
☑ We have assessed the degree of risk inherent in the personal data being used in the research project, and confirm that all DPU GDPR requirements have been met prior to submitting this application *(e.g. completion of Data Protection questionnaire, confirmation that any survey tool being used is GDPR compliant, that required Data Processing or Sharing Agreements will be in place, etc.)*

4.2 Data access – please confirm whether access to participant data is confined to the investigators named on this application:

☑ Yes	No ☐

If No, please name who the other individuals are and why they need access. Any proposed transfer of data (including outside of the EU) should be detailed here.

4.3 Data storage – please confirm compliance with the following:

☑ Data collected on mobile devices will be protected with a strong password/passphrase at a minimum, and/or encrypted if the device supports it
☑ Data will be removed from mobile devices as soon as is practicable and stored in a secured location in DCU (on server or institutional Google Drive)
☑ Paper based data will be held securely in locked cabinets in DCU, with access restricted to the named researchers
Specific arrangements in relation to biological samples should be stated here:
Any exemptions to the above compliance statements should be justified here:

4.4 Please confirm who will be responsible for the secure storage of data generated by the research:
Name the relevant DCU investigator/s

Madalina Triboi Siri Nandipaty

4.5 Please confirm how long the data will be held for:
For personal data, consult section 15: Retention of Personal Data in the <u>"Data Protection – Key Points for DCU Researchers"</u> guidance on the DCU Data Protection Unit (DPU) website

For the duration of this project including presentations.

4.6 Please confirm what will happen to the data collected at the end of the study:
Please tick the relevant checkbox and complete the associated follow-up section for that category

☐ Archived	☑ Destroyed	☐ Other

4.6.1 Archived data
Please provide the following details:

Name the DCU staff member responsible for archival and future use of data	
Confirm whether the data will be made available to other researchers, and if so, how?	
Confirm <u>how</u> the data will be prepared for archive (e.g. will datasets be anonymised)	
Confirm <u>where</u> the data will be archived and who will be allowed to access it	

4.6.2 Destroyed data
Please provide the following details – Note: for student projects, the supervisor must take responsibility for data destruction if there is no guarantee the student will have access to the data at the time of destruction

Please justify why the data will be destroyed	Personal data that is no longer needed for the project & presentations
Name the DCU researcher responsible for destruction of data	Madalina Triboi Siri Nandipaty
Confirm when the data will be destroyed (specify date)	5/03/2024
Confirm compliance with the following destruction methods (tick relevant boxes)	☑ Electronic data will be overwritten/securely deleted ☐ Paper based data will be confidentially shredded ☐ Medical samples will be disposed in accordance with the relevant DCU approved SOP

4.6.2 Other - Please explain what will happen to the data if not being archived or destroyed:

SECTION 5 – PARTICIPANT INFORMATION AND INFORMED CONSENT PROCEDURES

In addition to completing this form you are required to attach, within the single PDF that you submit, a copy of (1) the Participation Information Sheet which you share with your participants and (2) a copy of the Informed Consent Form which your participants sign.

5.1 Please confirm that the following items have been addressed in your Participant Information Sheet which should be shared with all participants whether it involves online or in-person data gathering:

The items below should be used as headings in your information sheet. Note the language used under each item must reflect the participant age group and corresponding comprehension level– if your participants have different comprehension levels (e.g. both adult and child participants) then separate sheets must be prepared for each set. Templates are available via the REC Forms - Applications, Templates and Amendments section of the Research Ethics website.

Checklist – tick the relevant check box for each item	Yes	No
Introductory Statement (Researcher names and titles, school, title of the research study)	☑	☐
What is this research about?	☑	☐
Why is this research being conducted?	☑	☐
Why have you been invited to take part?	☑	☐
What will happen if you decide to take part in this research study?	☑	☐
How will your data be used?	☑	☐
How will your privacy be protected (including any legal limits to confidentiality)?	☑	☐
What are the benefits of taking part in this research study?	☐	☑
What are the risks of taking part in this research study?	☑	☐
Can you change your mind at any stage and withdraw from this study?	☑	☐
How will you find out what happens with this project?	☑	☐
Contact details for further information	☑	☐

If you marked any item as No, please explain and justify why:

There are no inherent benefits to participating in this study, it is all voluntary and the participants will not be compensated for their time

5.2 Informed Consent Procedures – please confirm whether written consent is to be obtained:
Please tick the relevant checkbox

☐ Yes	☑ No

If Yes, describe the procedures by which written consent will be obtained. If you are involving child participants, you will also need to obtain their written assent. Templates are available via the REC Forms - Applications, Templates and Amendments section of the Research Ethics website.

If No, describe the procedures regarding how consent/assent will be obtained:

> When using the app users/participants will be questioned whether they want their location to be used. They will have the option to refuse, allow access only for that specific time, or accept to have their location tracked for all times when using the app.

If you are gathering data from an online process such as Google Form or SurveyMonkey then you should use a page such as the one below, to capture participants' informed consent and your data gathering should not proceed until participants have completed this form with the appropriate answers.

<u>*Participant – please complete the following (by clicking Yes/No for each question)*</u>

I have read the Plain Language Statement (or had it read to me) *

◉ Yes

○ No

I understand the information provided *

○ Yes

○ No

I have had an opportunity to ask questions and discuss this study *

○ Yes

○ No

I understand the information provided in relation to data protection *

○ Yes

○ No

I have received satisfactory answers to all my questions *

○ Yes

○ No

I understand I may withdraw from the Research Study at any point *

○ Yes

○ No

I have read and understand the arrangements to be made to protect confidentiality of data, including that confidentiality of information provided is subject to legal limitations *

○ Yes

○ No

I have read and understand confirmations relating to any other relevant information as indicated in the PLS *

○ Yes

○ No

I consent to participate in this research study *

○ Yes

○ No

SECTION 6 – SUBMISSION CHECKLIST AND RESEARCHER DECLARATION

6.1 Please confirm all required supplementary documentation to be included in this application within Section 7:

Checklist – tick the relevant check box for each item	Yes	N/A
Participant Information Sheet/s	☑	☐
Informed Consent Form/s	☐	☑
Informed Assent Form/s	☐	☑
Recruitment Advertisement	☐	☑
Questionnaire/Survey	☐	☑
Interview/Focus Group Questions	☐	☑
Debriefing Material	☐	☑
Bibliography	☐	☑
Approval from another Research Ethics Committee	☐	☑
Evidence of other external approvals (e.g. Board of Management letter)	☐	☑
Evidence of internal approvals (e.g. BSC approval review letter)	☐	☑
Other – provide details here:	☐	☑

6.2 Signed Declaration
By submitting this form, the applicant (and supervisor) agree to the following:

The information contained herein is, to the best of my knowledge and belief, accurate. I have read the University's current research ethics guidelines, and accept responsibility for the conduct of the procedures set out in the attached application in accordance with the form guidelines, the REC guidance and resources, the University's Conflict of Interest Policy, its Code of Good Research Practice and any other condition laid down by the Dublin City University Research Ethics Committee. I have attempted to identify all risks related to the research that may arise in conducting this research and acknowledge my obligations and the rights of the participants.

I also acknowledge my requirement to be informed as to other duties and legal obligations applying to my research, and to comply with these duties and obligations – this includes being informed about DCU Data Protection guidelines for researchers, DCU Child Protection policy and procedures (where relevant) and DCU Insurance requirements.

I and my co-investigators and/or supporting staff have the appropriate qualifications, experience and facilities to conduct the research set out in the attached application and to deal with any emergencies and contingencies related to the research that may arise. Research will not commence until required consents and approvals are in place.

Electronic Signature(s):

Supervisor:

Print Name here: Dr Tracey Mehigan

Date: 18th January 2024

Student(s) signature(s): Triboi   Nandipaty

Print Name(s) here: Madalina Triboi and Siri Nandipaty

Date: 10/1/2024

SECTION 7 – SUPPLEMENTARY DOCUMENTATION

Please attach all required documentation as confirmed by you in the previous section. The application should then be saved as one file in <u>PDF format</u> before submission via the project dashboard.

Participation Information Sheet

A Participant Information Sheet should use language that reflects the participant age group and corresponding comprehension level. It should cover the following items, retained as headings in the sheet (they are for the participant to read and are therefore phrased accordingly). The information in italics is to prompt the research team to provide the appropriate detail under each heading. Please include additional sections if necessary for your research

Introductory Statement
Identify the researcher names and titles, the DCU school they are from, and title of the research study

Researchers: Siri Nandipaty, Student
                          Madalina Triboi, Student
DCU school: School of Computing
Title of Study: TerraTalk

What is this research about?

The app we have created acts as a social media platform with a focus on environmental topics. Key functions of this app are allowing users to easily access news about environmentalism, allow them to use the map feature which displays local vegan/vegetarian restaurants, bicycle recharge points and local organic shops, a forum page which allows users to

Why is this research being conducted?
Research is being conducted because of our need for user testing, we want to improve and develop our app further and for that we need participants willing to give feedback based on their experience so we can fix any bugs/errors or improve on the general UI experience.

Why have you been invited to take part?
The invitation to take part in this project is completely random and not dependent on the researchers relationship to the participant

What will happen if you decide to take part in this research study?

Participants will be asked to use all of the apps current features and will have to participate in answering a questionnaire at the end on their thoughts and opinions on their experience on the app.

How will your data be used?

This should reflect the details provided in Section 4 of your REC application form, including what will happen to the data at the end of the study.

If personal data is being collected and processed, further to you having met all DPU requirements, please ensure you include the following information in this section (consult the Data Protection Unit website guidance as necessary). *Participant's right to withdraw consent is covered in a subsequent section.*

- *Identity of the Data Controller (or Joint Data Controllers where relevant) plus the details of any Data Processor (where applicable)*
- *Identity of the DCU Data Protection Officer – Mr. Martin Ward (data.protection@dcu.ie Ph.: 7005118 / 7008257) who will handle any data protection concerns arising from the research.*
- *The reason(s) for which the data will be processed or held.*
- *The categories or types of personal data to be processed.*
- *The details of any third parties (i.e. data processors) with whom the data will be shared or transferred, and the reasons for sharing.*
- *The details of any external (i.e. non-DCU) parties with whom the data will be shared or transferred, and the reasons for sharing.*
- *Where relevant, details of any intention to transfer the data to other countries, especially if outside of the EEA (European Economic Area), and the legal basis invoked for such transfers.*
- *The data's retention period or the criteria used to determine retention periods.*
- *The right of the individual to lodge a complaint concerning the use of personal data with the [Irish Data Protection Commission.](#)*
- *Information on the rights of the data subject - Individuals' have the right to access their own personal data and the Participant Information Sheet should inform them how to do this and who to contact either within the research team, or alternatively by contacting the Data Protection Unit.*
- *If it is intended that the data be used for future studies, you must specify the general parameters of the future further research uses to which the participant's personal data may be used.*
- *In cases where personal data will later be anonymized (e.g. for statistical or aggregated data), it is best practice to describe this, so that the participant is fully informed.*

How will your privacy be protected (including any legal limits to confidentiality)?

Confidentiality of information can only be protected within the limitations of the law - i.e., it is possible for data to be subject to subpoena, freedom of information claim or mandated reporting by some professions

Everything will be stored DCU google drive which only researchers can access and on 05/03/2024 where we will destroy the data

What are the benefits of taking part in this research study?

N/A

What are the risks of taking part in this study?

The main risk about being part of this study is we will need personal details from the participant such as email and location which will be stored in a secure database not to be used outside the app.

Can you change your mind at any stage and withdraw from this study?

participation in the project is voluntary, and will end at the point they withdraw their consent to participate.

The participants' data will be removed shortly after their declaration to withdraw from the survey and will receive an email to confirm that their data has been destroyed. Please refer to the contact section to declare withdrawal of participation

How will you find out what happens with this project?

Participants will get emails updating them about their involvement and the development of the project. Participants will not receive feedback
